I can talk at 3 if that works best for you.

Ayn,

Do you have time to talk with Gary Foley and me later today? Wanted to touch base and share what we know as far as Pavillion updates (what we've heard and what you may have heard). We have a research program review today through 4 PM (3 PM MT), but could call you after then if you are available. Let me know.

(We could call earlier if that would be better for you; just need to find a slow time for us during the program review).
